Subject: Taxi owner of Myrtle Beach Yellow Cab

My name is Grigor Xhani, owner of Myrtle Beach Yellow Cab. I have been in the taxi business for 15 years respecting and following all the state regulations and requirements in order to transport paying customers with my vehicle. Uber is a disgrace on how a business should operate under the law. Their vehicles are not regulated as a business vehicle and their drivers are not regulated as chauffeurs nor do they possess a chauffeur's permit. I cannot emphasize enough the consequences that would result if a taxi driver would attempt to do follow in Uber's traditions on regulations, so I and many taxi owners insist on the law to give Uber the same treatment.

Uber is a great co that I do business with in 5 states. Why deny South Carolina residents the service choices other states happily accept!

I support Uber! Charleston needs to wake up & provide reliable, affordable, & convenient transportation. Instead they "beautify" the crosstown & cut back busses. Uber is the only reliable cost friendly ride available in Charleston. And the airport not allowing the Uber app to be accessed is BS!
Thanks
